

Community of Practice for Just Energy Transition (JET CoP) in Asia- Online workshop

Transforming Economies for a Just and Low-Carbon Future: Diversification strategies that promote equity, inclusion, and sustainability.

Background

Economic diversification and Long-Term Low Emission Development Strategies (LTLEDS)

Phasing out coal as an energy source is a critical step toward achieving the goals of the Paris Agreement and safeguarding the planet from the impacts of global warming. Yet, coal mining and coal-fired power have long been pillars of both local and national economies. This is especially true for coal-dependent regions, which now face profound challenges as international and local climate commitments push for a transition away from coal.

So how can these regions reshape their economies to preserve local jobs, livelihoods, and economic vitality? And just as importantly, how can they ensure that this shift toward cleaner energy is a Just Transition—one that is fair, inclusive, and leaves no one behind?

Objectives

This online workshop aims at strengthening stakeholders' capacities to design local economic development strategies that attract investment, create inclusive employment opportunities and promote sustainable private sector development in coal mining regions.

It will provide an opportunity to learn from practical cases taking place in different regions in Asia, both through presentations and exchanges among participants.

Language

This event will take place in **English**. Interpretation to/from other languages (**Indonesian, Vietnamese, Mongolian...**) will be available upon request by contacting nacher@ilo.org.

Registration and logistics

Please confirm your participation by filling in the registration form at this link: <https://ilo-org.zoom.us/meeting/register/eEPikPYKQ1u4cyVeVEobkA>

You will receive an email confirmation from “Amna, Emalia no-reply@zoom.us” with the link to join the workshop.

Further information

For any additional information or inquiries, please contact Ananda Alonso Nacher at: nacher@ilo.org.

Programme

The workshop will take place via **Zoom** on **Wednesday 3 September from 14.00 – 15.30 pm (Jakarta time)**.

Time	Content
14:00 - 14:05	Opening Session Update on the Just Energy Transition Community of Practice and its upcoming activities.
14:06 - 14:40	Presentation and Q&A Session Nyimas Wardah, GIZ: Regional Consultation Forum for Local Economic Transformation in Indonesia.
14:40-15:25	Knowledge exchange: Sharing examples, ideas and lessons learned Group exercise where participants will be able to identify initiatives, actions and approaches to be applied in concrete scenarios.
15:25 - 15:30	Closing

About the JET CoP

The Community of Practice (CoP) for Just Energy Transition in Asia, facilitated by the ILO under the project “Innovation Regions for a Just Energy Transition” (IKI-JET), aims at supporting key stakeholders in the region to plan for and implement just energy transition pathways away from coal and towards a low-carbon energy system, consistent with the Paris Agreement and the ILO Just Transition Guidelines. The CoP is designed to facilitate peer-to-peer knowledge exchange, promote collaborative approaches to common challenges, and foster the development of shared resources and practices. More information available in the [JET CoP concept note](#) and the [JET CoP Resource Page](#).

This activity is implemented with the financial support of the International Climate Initiative of the German Federal Ministry of Economic Affairs and Climate Action (BMWK) and the European Union under a Grant Agreement with GIZ. Its contents are the sole responsibility of their authors and do not necessarily reflect the views of BMWK, the EU or GIZ.
